JESWIN B

Computer Science Engineering Student
23cs350@mgits.ac.in | +91 8848207076 | Kerala, India
github.com/JB1071017

Profile Summary

Motivated Computer Science Engineering student with practical exposure to software development, full-stack web applications, AI integration, backend systems, and intelligent application development.

Education

B.Tech in Computer Science Engineering, Muthoot Institute of Technology and Science (2023–2027), CGPA: 7.88
Higher Secondary: 98%
SSLC: Full A+

Technical Skills

Python, Java, C, C++, JavaScript, Django, REST APIs, Firebase, Android Studio, VS Code, PyCharm, Jupyter, ROS, DBMS, OOP, DSA.

Internship

Cyber Security Intern – NaicoITS, Infopark Kochi: Developed Python-based security automation tools for vulnerability detection and data integrity.

Projects

• AI-powered Circuit Assistant using Python, Django, Gemini API and LLMs.

• Full-stack Django web application with REST APIs and database integration.

• Android mobile application with Firebase Authentication and Cloud Storage.

• Touch-based projector system using Python and OpenCV.

Achievements

• Winner – ICPC College-Level Programming Competition (2026).
• Secured 1st Place in the institute-level ICPC programming competition, demonstrating strong algorithmic and problem-solving skills.

Relevant Coursework

Object Oriented Programming, Data Structures and Algorithms, Mobile Application Development, Database Management Systems, Operating Systems.

Certifications

Mobile App Development Using Android Studio
Internship Training in Cyber Security

Languages

English, Malayalam, Hindi
